

# FREE SUNFLOWERS!

*(yes really, we're giving them away for free!)*

*New 2014 Ford Tonka Truck*

A short while ago we planted a few acres of sunflowers and they just now bloomed. We figure that we have more than enough for ourselves so, we would like to share them with you.

Unlike the promotions of most other new car dealers, you won't have to give us your e-mail address, social security number or take a test drive. We won't make you buy anything or pressure you at all. Just stop by our Ford showroom during normal business hours and pick up a bouquet we will have picked for you.

Of course this has to be while supplies last and we ask that you only take one per household.

Why are we doing this?

The way we look at it, life is too short, sunflowers are cool, and if you take a trip here you will get to see that our "no-nonsense" dealership is only a short trip from wherever you live. You will also see some cool cars and meet the nice people we have working here that sell them.

It's as simple and "no-nonsense" as that.
